Dear Sirs,

Thank you for your interest in Tri-State Area Contractors Association. Please see attached the information for your review.

Tri-State Area Contractors Association, Inc.'s mission is to better working conditions for the Commercial Construction industry in the Southwest Missouri, Southeast Kansas, and Northeast Oklahoma areas and to become a viable power to address City, County, and State issues which directly impact the Commercial Construction industry in these areas.

To-date we have organized the following Committees to work on these and other issues:

- **Membership Committee**: To build the membership of the Association.
- **Social/Fund Raising Committee**: To organize social events and fundraisers.
- **Buyers of Construction Services Committee**: To act as a liaison for Owner Relations, Architect Relations, etc...
- **Education & Training Committee**: To coordinate training and education for Members as well as maintaining an education and scholarship program for Students interested in entering the construction field.
- **Legal and Legislative Committee**: To work with local and State Officials to negotiate legal and legislative changes.
- **Safety, Health and OSHA Committee**: To educate the membership on any update/changes to safety, health and OSHA regulations.

There are several benefits of membership. We have a monthly newsletter that keeps our members informed of upcoming events, upcoming bids, community information, and pertinent news within the Association. **We also have a full-service physical and online plan room. The physical plan room offers our members a place to review, do take-off, and/or have copies made of current projects up for bid. The online plan room allows members to view, download, and/or print any plans that we have in the plan room. Our members are kept up to date on all plans and project changes through the online plan room or by fax, depending on preference.** Our members also receive a spot on our website, which enables members and non-members alike to have contact information for your company at a moments notice.

Membership Package Information

Page 2

Tri-State Area Contractors Association is also working to become an active member of the community with a strong dedication to community development and education. We provide several annual college and trade scholarships. We also believe that liaison work is an efficient way to solve problems. Our committees deal with all local government entities to discuss issues of concern and work with them to obtain possible solutions. A very important facet of membership is our emphasis on doing business with local firms, preferably fellow members.

There are numerous opportunities to meet your fellow construction industry professionals throughout the year, especially at the monthly membership meetings. We are working to make our meetings informative, yet entertaining while providing a relaxed, yet professional atmosphere. The \$18 cost covers dinner, and a cash bar is provided. Our meetings take place on the third (3rd) Monday of each month. We also have several social and educational events throughout the year.

In closing, I have enclosed an application for membership for your review. After you have a chance to review this information if you have any questions, or would like any further information, please don't hesitate to give me a call.

Sincerely,

Christy E. Burrow-Holcomb
Executive Administrator
